An Encouraging Word

Culture says the world began with a big bang over 13 billion years ago. Culture says that the earth is very old, and all life evolved slowly over time. The Bible teaches that God predates the existence of the universe and is the Creator of all. The Bible teaches God created everything in six literal days, and all humans are related to Adam and Eve.

Modern culture and the Bible provide contradictory accounts of how the world began. Culture says that the world began with a big bang and has evolved into what we are today. The Bible teaches that the world was created by God as recorded in the book of Genesis. Both of these cannot be true. Any attempt to somehow merge these two opposing belief systems is disingenuous at best. Only one can be correct.

Today I will attempt to answer the question *Which is Right: Evolution or Creation?* But it all boils down to what you believe. Do you believe culture, or do you believe the Bible?

Be encouraged,
Pastor Rob
